(a) whether Government have formulated a scheme to generate additional income by making commercial area on railway land;

(b) if so, the unused land available at present with railways;

(d) the names of such cities where such land is available, alongwith the area thereof?

THE MINISTER OF STATE IN THE MINISTRY OF RAILWAYS (SHRI DIGVIJAY SINGH): (a) In view of the declining budgetary support from the General Exchequer in the last decade or so, Railways have decided to utilise air-space over its identified vacant land/stations requiring re-building.

(b) About 0.25 lakh Hectare.

(c) and (d) Railways have identified a few stations and vacant plots in Mumbai, Delhi, Calcutta, Chennai, Bangalore and Hyderabad in the First Phase, with the intention to extend commercial development of railway land/air-space to all other parts of the country in phases and after gaining experience. The commercial potential of each site varies widely from place to place and from location to location. As the endeavour is going to continue for a long time, it is difficult to assess the total income out of this venture.
